General Information

The Massachusetts General Hospital is a private nonprofit institution incorporated by special act of the General Court of the Commonwealth in 1811. The Corporation includes **The Massachusetts General Hospital, McLean Hospital,** and **The Massachusetts General Hospital Education Division. The General Hospital** includes the **Baker Memorial,** the **Burnham Memorial for Children, Phillips House,** and the **John Collins Warren Laboratories** of the Huntington Memorial Hospital of Harvard University. Entrances to The General Hospital are on Fruit Street at the end of North Grove Street, on Blossom Street, and on Charles Street in Boston. **McLean Hospital,** in Belmont, Massachusetts, is a psychiatric hospital. **Vincent Memorial Hospital** is a separate institution staffed and managed by the Gynecological Service of The General Hospital.

Other Facilities

The Emergency Ward, located at the Fruit Street entrance of The General Hospital, is open 24 hours a day.

The Ambulatory Care Division is available to patients, without regard to financial status, during daytime hours. Appointments may be made by mail, telephone, or personal application at the Clinics Admitting Desk (entrance off Fruit Street).

Logan Airport Medical Station is an extension of The General Hospital serving passengers, employees, and visitors at the airport.

MGH-Bunker Hill Health Center, located on High Street in Charlestown, is a facility of The General Hospital devoted to the medical care of Charlestown residents.

MGH-Chelsea Health Center, a similar facility located at 111 Bellingham Street in Chelsea, provides care to the residents of Chelsea and neighboring communities.

The General Hospital is affiliated with the Massachusetts Eye and Ear Infirmary and the Shriners Hospitals for Crippled Children, Burns Institute, Boston Unit.

The Massachusetts General Hospital is

— A member of the American Hospital Association and the Massachusetts Hospital Association
— Accredited by the Joint Commission on Accreditation of Hospitals of the United States and Canada
— Approved for residency training by The American Medical Association

Report of the Trustees

It is an honor to present the 166th annual report of the Board of Trustees of The Massachusetts General Hospital. The calendar year 1979 has presented its fair share of problems, challenges and opportunities. Some of the problems such as persistently increasing inflation with its eroding effect on the financial structure of the hospital are beyond our power to mount a direct attack leading to their solution. Others are susceptible to corrective action on our part. The prime example is the pressing need to correct the increasing deficiencies of our physical plant and to provide new facilities to meet the institution's acute space needs.

In last year's report, mention was made of the inauguration of a feasibility study of a much needed long term fund raising drive. This study was carried out during the first quarter of 1979. The report stated that given the wholehearted and vigorous support of the Board of Trustees and members of the Corporation a ten-year drive to raise approximately $115 million would be feasible. These funds would provide (among other items) a new Ambulatory Care Clinic on the present site of Moseley and Walcott, the renovation of or replacement of the Baker Memorial and the Vincent-Burnham complex, modernization of Phillips House, and the renovation of key areas in both White and Gray Buildings. The program would include further the construction of an additional research building with adequate space for laboratory animals, and both start-up and endowment funds for the newly created Education Division described in last year's report. Finally, funding of the Cox Building would be completed.

After long deliberation and careful thought, the Board of Trustees voted to implement the project without delay. Mr. John E. Lawrence accepted the Chairmanship of the Campaign with Mr. John L. Cooper as Vice Chairman. Marts and Lundy, Inc. was engaged as the official consultant, and the Office of Development was strengthened under the leadership of Mr. Donnelly in order that the planning necessary for the inauguration of the Campaign could be carried out expeditiously.

A special meeting of the Corporation was held in May at which time the plans for and the implications of the Campaign were discussed with its members. In addition the President, Mr. Lawrence, announced his intention of appointing a number of Visiting Committees which would permit Members of the Corporation to become better acquainted with key activities of the hospital. This proposal was enthusiastically received and endorsed. Under the dedicated and effective leadership of Mrs. Claflin, the organization and implementation of the plan were well underway by the end of the calendar year.

Although the hospital had received the "final" Certificate of Need from the Public Health Council in the summer of 1978, the Ten Taxpayers Group representing the Charles River Park continued to appeal the decision. After due reconsideration by the proper authorities, the issuance of the Certificate of Need was reaffirmed on 6 March 1979 thus permitting the hospital to start the implementation of the project. Five months of hard work by Mr. Crittenden, Dr. Sanders and Mr. Martin resulted in successful negotiation of a HEFA loan in the amount of $60 million at a favorable rate of interest. Included in that amount were (1) refinancing of the hospital's original HEFA loan ($30 million) and (2) a new loan of $30 million for the Ambulatory Care Center. After careful study, Skidmore, Owings and Merrill were selected as architects and Walsh Brothers as the responsible overall contractors. Demolition of Walcott House and the Moseley began in the early autumn, and by the year's end, the site had been leveled with groundbreadking scheduled for early 1980. Our regret at seeing these handsome buildings go down was tempered only by our satisfaction in finally making a start on the new desperately needed Ambulatory Care Center.

The search for a Provost for the Educational Division was brought to a successful conclusion on 22 June 1979 when the Board of Trustees appointed Julian F. Haynes, Jr. Ph.D. of the University of Maine as Provost of the Division for a term of three years beginning with the academic year 1979-1980. Dr. Haynes took up his duties in September and planning for the organization and implementation of the Division continues apace. Recruitment of program directors and faculty have become a prime consideration. The Division plans to enroll its first candidates for the degrees of Master of Science in

Dietetics and Physical Therapy in September, 1980, and in Nursing in September, 1981. Much credit is due to the Trustees' Education Division Committee (chaired by Mr. Darling) for effective leadership in this area.

The Scientific Advisory Committee of the Gneral Hospital held its annual meeting on 6, 7 and 8 December 1979. The two new appointees, Elizabeth D. Hay, M.D. (Chairman of the Department of Anatomy at Harvard Medical School) and Donald W. Seldin, M.D. (Chairman, Department of Medicine at the University of Texas Southwestern School of Medicine) were in attendance for the first time. On the evening of 6 December, the members of the committee attended a dinner with the Trustees and representatives of the Committee on Research whose Chairman, Dr. Gross, gave a succinct summary of the research activities of the hospital. The two retiring members of the Advisory Committee (Dr. Billingham and Dr. Beeson) followed with informative and entertaining farewell speeches.

The morning of 7 December was devoted to the scientific symposium presented by the Departments of Neurology, Neurosurgery and Psychiatry on the general theme "Future of the Neurosciences at MGH." The subsequent lunch was attended by members of the Scientific Advisory Committee and of the executive group representing the hospital's Committee on Research.

The afternoon session was devoted to an in-depth discussion of the future of neuroscience at the hospital led by Dr. Martin (Chief of Neurology), Dr. Zervas (Chief of Neurosurgery) and Dr. Hackett (Chief of Psychiatry) with active and stimulating participation by the visitors. These valuable discussions are summarized in the report of the Committee on Research. A most enjoyable reception and dinner followed at which Dr. Floyd E. Bloom, Director of the Arthur V. David Center for Behavior Biology at the Salk Institute of LaJolla, gave a stimulating address on the subject "Explosions in the Neurosciences: Opportunities for Neurology, Neurosurgery and Psychiatry."

The final morning (8 December) was devoted to an executive session which was joined at its close by Dr. Sanders and Dr. Cheever for further discussion of the recommendations of the committee. The report of the Scientific Advisory Com-

mittee will be sent to the Board of Trustees and referred to the Committee on Research which, after study and comment, will forward their recommendations to the Board of Trustees for consideration. The Trustees are most grateful to Dr. Eisen (Chairman) and the other members of the Scientific Advisory Committee for their invaluable services to the hospital and it notes with particular regret the departure of Dr. Beeson and Dr. Billingham.

During the year, the Trustees have considered carefully a possible reorganization of the corporate structure of the Massachusetts General Hospital calling for the creation of at least two subsidiary corporations (the General Hospital and the McLean Hospital) for the purpose of enhancing efficiency of operation and conservation of assets. As preliminary steps, new articles of organization were approved by the Secretary of State of the Commonwealth of Massachusetts, and as well, permission was secured from the Town of Belmont to transfer the parent corporation's real estate in Belmont to the proposed McLean Hospital subsidiary corporation. In the continuing discussions concerning the implementation of the program, the Trustees have received invaluable assistance from Ronald W. Schram, Esq. and David Donaldson, Esq. of the law firm of Ropes and Gray.

In the spring of 1979, the General Hospital was surveyed by the Joint Commission on the Accreditation of Hospital and given accreditation for the coming year. As in previous years, the commission pointed out the imperative need to modernize our facilities with minimal delay in order to bring the hospital into conformity with the latest promulgated safety codes.

The McLean Hospital Division once more enjoyed a successful year both professionally and financially. Patient census remained constantly high and the previously noted problem of a chronic shortage of adequately trained psychiatric nurses was largely solved as a result of strenuous efforts on the part of the professional staff. The operating surplus generated was directed to the renovation of outmoded facilities with the emphasis on achieving conformity with the lates safety regulations.

In the spring of 1979, McLean Hospital was surveyed by the Joint Commission on Accreditation of Hospitals and

given accreditation for the coming year. The "Long Range Planning Committee" remained active and the services of a planning consultant were engaged.

In this regard, it is worth noting that increasingly, the State is looking to the private mental health sector, and McLean in particular, to provide quality psychiatric services to a broader patient population. During the year, a new contract with the State was signed whereby McLean began providing psychiatric services at Metropolitan State Hospital and its contract for providing similar services at Bridgewater State Hospital was renewed and expanded. With the explicit statement of the Commissioner of the Department of Mental Health that the State ought to get out of the direct mental health delivery business, McLean's opportunities for collaborating with the public mental health sector should increase.

On April 27, 1979, the full Board of Trustees of the Massachusetts General Hospital met in McLean Hospital and devoted the major part of the meeting to review and discussion of the activities of the latter institution. This proved to be an instructive and useful exercise, and the tentative plan calls for a repetition of same on an annual basis.

Both the Mailman Research Center and the Ralph Lowell Research Laboratories continued to expand their interdisciplinary programs of basic and applied biomedical research. The newly created Scientific Advisory Committee met twice in 1979 in the Hospital, and a definitive report is expected early in 1980. The meetings themselves provided ideal opportunities for a stimulating exchange of views between the members of the committee and the staff of the Hospital. Detailed accounts of the important activity may be found in the reports of the Director and the Psychiatrist-in-Chief.

Two new appointments to the Board of Trustees were made by Edward J. King following his inauguration as Governor of the Commonwealth of Massachusetts in January 1979. These appointees, Lawrence E. Fouraker, Dean, Graduate School of Business Administration at Harvard University, and Charles M. Haar, Louis D. Brandeis Professor of Law at the Law School of Harvard University, took office in February 1979 and have added greatly to the deliberations of the Board. At that time, the Trustees expressed their warm thanks to Mrs. Ruth M. Batson and Professor

Marc J. Roberts for their able and generous services as Trustees during the past four and three years, respectively.

Newly appointed Members of the Corporation for 1979 were: Dwight Allison, Jr., Edward L. Bigelow, Lewis H. Clark, John L. Cooper, James M. Fitzgibbons, Henry L. Foster, D.V.M., Charles M. Haar, Esq., Richard S. Humphrey, Jr., Walter Hunnewell, Robert A. Lawrence, J. Williams Middendorf II, and Eliot I. Snider. They will serve along with those reappointed: Sewall H. Fessenden, Jr., Lawrence E. Fouraker, Ph.D., Edward C. Johnson III, Roderick M. MacDougall, Frederick S. Moseley III, Henry S. Streeter, Esq., and Henry Wheeler, Esq. Their terms of service will expire in 1984. The term of service of four members of the Corporation expired in 1979: Walter Berman, Hadley Case, Irving E. Rogers and Frederick G.P. Thorne. We are grateful to them for their service and look forward to their continuing friendship.

In the early months of 1979, The Massachusetts General Hospital suffered the grievous loss of three devoted friends and former associates.

On 6 March 1979 John Hilton Knowles, M.D., General Director of the hospital from 1962 to 1972, died in Phillips House after an illness of several months. At the time of his untimely death, he was President of The Rockefeller Foundation. His leadership during a decade of "grest technologic, societal and financial change" enable the hospital to modernize and expand its physical plant, reorganize its internal structure and increase its responsiveness to community needs. Although he was the youngest General Director in the 150 year history of the hospital, he was surely one of the greatest. His wisdom, buoyant spirit and indomitable courage and energy will be sorely missed in the years to come. The hospital has lost a true friend and to honor his memory, the Trustees have voted to establish the John Hilton Knowles Provostship in the Division of Education. This action would not have been possible without the generous commitment of his family.

S. Lang Makrauer, Esq., Trustee from 1972 to 1975, died suddenly on 27 March 1979 in Arizona. During his service as Trustee, he gave generously of his time and means to the

hospital. He initiated the Cardiovascular Research Fund at the General Hospital and gave generous support to the programs of the Vincent Memorial Hospital and to the newly crated Division of Education. He served faithfully and well on the Trustees' Finance and Audit, Investment and McLean Hospital Committees. At the time of his untimely death, he was rendering valuable service as a Member of the Corporation.

Phillips Ketchum, Esq. died after a long illness on 22 April 1979 at his home in South Natick, Massachusetts. His record of dedicated and effective service to the hospital was remarkable. He was a Trustee of the Corporation from 1928 to 1964, its Treasurer from 1928 to 1939 and its President from 1956 to 1964, and thereafter served as Honorary Trustee and Honorary President for over a decade. Among his many accomplishments should be mentioned his important role in the establishment of the Hall-Mercer Children's Center at McLean Hospital and his invaluable services to the research community of the hospital through his support of the Committee on Research (over whose meetings he presided for twenty years) and the establishment of the Scientific Advisory Committee. In the words of the resolution adopted by the Trustees on 11 May 1979, "His wide experience, his clear recollection of precedent and the thoroughness of his study and analysis made him a commanding and conspicuously useful member of the Board of Trustees throughout his long service."

As the events and achievements of the past year are reviewed, the Trustees wish to express to both the staff and administration of Massachusetts Hospital their admiration for and appreciation of their devoted and effective service to the institution. It is these factors that enable the hospital to face the future with all its problems — both recognized and unrecognized — with courage, confidence and equanimity.

F. SARGENT CHEEVER, M.D.
For the Trustees

Report of the General Director

It is an honor to submit the Annual Report for the year 1979, my seventh as the General Director. As I look at the first paragraph of my 1978 Report, I am struck by the continuing relevance of the sentence noting the increasingly complex regulatory climate. Throughout 1979, the hospital continued its development of plans for the major Capital Campaign, the implementation of the building and program plans for the Ambulatory Care Center, and establishing the Education Division. Each of these activities has moved forward in a continuing climate of burdensome regulation.

As noted in the Annual Reports of Dr. Hackett and Dr. Cheever, we were all greatly saddened by the death of the previous General Director, Dr. John H. Knowles. His memory, lingers not only here at the MGH, but in the world of health care at large for he left his indelible mark upon it.

At the end of a decade it seems timely to consider the size and composition of the professional staff of the MGH whose bed complement remains at 1082. Statistics compiled at year end showed that the MGH staff was comprised of 1,126 physicians, 182 Ph.D.'s and other advanced degree personnel for a total of 1,308 staff members. This 1979 complement reflects and increase of 14% over the staff serving the institution in 1976. The growth is attributable largely to the expansion of community activities and a growing number of clinical associates who make substantial contributions to teaching but whose major base of practice is not on site at MGH. Such growth has been particularly notable in medicine, pediatrics, and psychiatry.

Reflective of our major commitment to educating caretakers for the future, the MGH was responsible in 1979 for training 390 resident physicians in 15 clinical disciplines; 203 Clinical/and combined Clinical and Research Fellows and 137 Research Fellows for a total 730 post-graduate professionals in training. It is of interest to note that the 1979-80 trainee stipends and fringe benefits required budgetary appropriations of $6.8 million for the Residents and $427,000 for the Clinical Fellows. In addition, the National Institutes of Health, endowment income, foundation, grant, and voluntary agencies support contributed another $671,456

toward the costs of maintaining Clinical fellowship trainees, raising the total of such expenditures above one million dollars for the year. Even at that level, the hospital's budgeted cost figure for Resident stipends is lower than the total actual costs, the difference reflecting the amount paid to Residents from sources outside the institution such as a branch of the military, a foreign government, or an affiliated teaching program in another institution.

Overall, the hospital continued to exhibit its very busy pattern of clinical activity in 1979. The statistics showed 352,844 patient days in 1979 and an average occupancy of 88.52%. The efforts of our Utilizatin Review and Medical Audit programs help to assure that the patient length of stay and utilization of services appropriately reflect the highest standards of patient care. The assistance of our Continuing Care Planning Unit in assuring appropriate post-hospitalization placement for our patients has in turn facilitated our ability to accommodate as many patients as possible during 1979. The MGH staff continues to work closely with a variety of community agencies, community hospitals, and a sizeable network of nursing homes and chronic care facilites. Such efforts are indicative of our strong commitment to supporting the concept of meeting the needs of patients along a continuum of facilities and services.

The increasing percentage of America's population aged 75 and beyond makes us constantly aware of the need to work with many other agencies and services in the community to assure that the needs of this group are met. At the beginning of the century the elderly accounted for 4.1% of the population in the U.S. while in 1977 this had risen to 10.9%. The projection for the year 2000 is an increase to 12.9%. While in 1960 1/6 of all non-institutionalized elderly lived alone, by 1966 the proportion had increased to 1/4. Recognizing that persons 75 years or older spend an average of 4 and 1/4 times as many days in short stay hospitals as the national average and that 3/4 of all nursing home residents are beyond age 75, (1/3, beyond age 85) gives pause to all of us in thinking about appropriate planning for the care and needs of the American population of the future.

Work began on the construction of the new Ambulatory Care Center on the site of the Walcott and Moseley Build-

ings. Their demolition was unfortunate but necessary to make the necessary space available for the building. Their occupants have been relocated elsewhere in the hospital and in rented space adjacent to the hospital. At this time construction is proceeding on schedule with occupancy scheduled for December, 1981.

Turning to our ongoing commitment to upgrade other MGH facilities, it is appropriate to note that in June of 1979 the Joint commission on Accreditation of Hospitals awarded MGH a one year accreditation. Continuing concerns over problems relating to the age of the physical plant and the development of a plan to remedy these occupied much of the time and effort of the Managers in Engineering and Facilities planning throughout 1979. A plan of correction spanning a decade will be submitted to the Department of Health, Education and Welfare in the first quarter of 1980.

On the international front, the MGH in April enjoyed a special privilege of hosting a delegation of visitors from the People's Republic of China. Representing the Chinese Academy of Medical Sciences, the Delegation spent six weeks in the United States, two of these being at our hospital studying the practices of a complex American teaching hospital. Their visit marked the beginning of a developing friendship with public health officials in the People's Republic of China and with the Chinese Academy as well as several hospitals. Such organizations have subsequently requested that MGH provide training opportunities for their physicians. The purpose of such experiences is twofold: to facilitate incorporation of modern Western medicine into the fabric of the health care delivery system in their country, and to assist the development of a modern teaching hospital complex in Peking. To the extent that MGH is able to accommodate such requests, we have begun to provide what eductional assistance we can with the understanding that the support for their trainees must come from sources external to the MGH. Throughout 1979 our communications with the People's Republic of China have strengthened our mutual understanding of their desire for such training and the MGH commitment to providing it to the extent feasible within carefully established guidelines.

During 1979 I enjoyed serving as Chairman of the National Council on Health Care Technology of the National Center for Health Care Technology. As an institution where technology plays a major role and its development and appropriate use are an ongoing concern, the MGH is in a position to understand and contribute to the work of this Council.

The year 1979 saw several changes in the Administrative Staff. Mr. Delanson Y. Hopkins resigned as Director of Operations in the Spring to accept a position as Executive Vice President of Rhode Island Hospital. He has been succeeded by Mr. James H. Staton who joined us in August, coming from a position as Vice President of the Affiliated Hospital Center and Director of its Boston Hospital for Women Division. Dr. Jerome Grossman, Director of the Ambulatory Care Division and of Ambulatory Care Planning resigned in May to become President of the New England Medical Center. While we have missed the services of these dedicated people their well deserved promotions to positions of leadership in other teaching hospitals reflect our ongoing commitment to the development of managerial expertise for the hospital setting. In a similar vein it is worth noting that in 1979 the MGH Administrative Fellowship Program entered is seventh year. This two year program offers the opportunity to the Fellows to apply specific graduate study principles in the practical work setting of a complex acute care institution. In 1979 we welcomed back to the MGH one of the early graduates of this program, Mr. Richard Crater as Manager of Budgets and Cost Accounting.

In the Fall of 1979, Dr. Alexander Leaf, Chief of the Medical Services, requested that he be relieved of his duties as Chief of the Medical Service by July 1, 1980 or as soon as a successor could be chosen. His expressed desire is to devote his full time and energies to pursuit of his long standing research interests in preventive medicine. His decision culminates a 13 year term of leadership of the Medical Services and reflects his continuing commitment to serving MGH in the research areas of his particular interest. The hospital is in his debt for his selfless and sustained commitment to maintaining the Medical Service in its position of national leadership. At year end, a joint Harvard Medical School MGH *ad hoc* Committee had been appointed to select

his successor. The membership of this important committee is as follows:

Dr. W. Gerald Auten, Chairman
Dr. Harold Amos
Dr. Mary Ellen Avery
Dr. Eugene Braunwald
Dr. Francis H. Burr
Dr. George Cahill
Dr. Frank Epstein
Dr. Henry J. Mankin
Dr. Joseph Martin
Dr. Edwin Maynard
Dr. Charles A. Sanders

The Committee has begun its arduous task of seeking a successor for Dr. Leaf.

While there are many other events which might be worthy of mention in this report, it seems fitting to close at this point with a note of renewed hope for the decade of the 1980's . As I look to the future it is my sincere hope and belief that the 1980's will be a decade in which the programs we have begun will come to fruition, while those which are beginning to receive consideration will join them in establishing new directions as well as renewing our efforts in the areas where the MGH is best equipped to continue its role of leadership in the local and national community of teaching hospitals.

CHARLES A. SANDERS, M.D.
General Director

Report of the General Executive Committee

In this its 67th year, The General Executive Committee convened 29 times. Aside from the usual consideration of appointments, promotions, leaves of absence and departmental reviews, the single issue which received the greatest amount of attention was the Ambulatory Care Center. Throughout the year Mr. Martin and Dr. Sanders apprised the GEC of the demolition stages of the Walcott House and of the venerable Moseley building. As we moved from demolition to construction, updates were also provided. Throughout the entire year the GEC served as a central clearing agency for many of the questions that arose in connection with space allocation, space transition, space utlization and the administrative function of the ACC.

Dr. Henry Mankin reported that the House Officers Orientation Program had been favorably received. Eighty-nine of the 132 house officers completed the program representing a 68% compliance, a far higher percentage this year than last year.

Dr. Sanders gave voice for the GEC in expressing the deep sadness felt by the trustees and the staff about the death of Dr. John Knowles on March 6th, 1979. Dr. Sanders noted that during his shortened lifetime Dr. Knowles had accomplished as much or more than most individual could hope to in a lifetime twice as long.

On May 2nd, 1979 a proposal was made to initiate a program of cardiac transplantation to be carried out at the Massachusetts General Hospital. Presentations were made by Drs. W. Gerald Austen, Paul Russell, Roman DeSanctis and Edgar Haber. Detailed and spirited discussion of various aspects of the Cardiac Transplantation Program was carried out over two more GEC meetings and resulted in a thoughtful and thorough presentation of the issues. This was taken to the trustees for continued consideration.

Dr. Alexander Leaf announced the establishment of an MGH Center for Health Enhancement. The major focus of this program will be to promote optimal health behavior, thereby reducing mortality and morbidity, particularly in patients suffering from cardiovascular disease. The plan is

designed to provide three-month blocks of supervised exercise primarily at the Harvard Indoor Track Facility. A somewhat similar proposal by the Orthopedic Service resulted in the design of The Cardiac and Pulomnary Rehabilitation Service, a multi-disciplinary measurement center which will serve a variety of individuals including a substantial number of patients ineligible by diagnosis for the medical service program. The Cardiac and Pulmonary Rehabilitation Service will operate in the new Ambulatory Care Center while Dr. Leaf's program will operate from a site off campus.

As a follow up on the March GEC Retreat, Dr. George Baker, with his customary vigor, presented an update on Health Maintenance Organization activity. At that retreat it was decided that the MGH need not develop its own HMO. Dr. Baker noted that the number of HMOs in the greater Boston area had increased, but that many were engaged in marketing activities designed to gain penetration into regional and larger populations. In keeping with the recommendations of the March retreat, Dr. Baker suggested continuing a middle ground for the MGH, a course that met with the agreement of the GEC.

The formation of corporate visiting committees was described by Dr. Sanders. Standing committees were designated, each with a corporation member as chairman, for the following: Surgery, Medicine, Neuroscience, Diagnostic and Therapeutic Services, and Administration and Finance. The Committees would visit these major functional areas of the hospital for the purpose of enhancing the understanding of the institution by the Corporation and to facilitate the participation of the Corporation in the forthcoming major fund drive. It was also thought that the resulting improvement in comunication between the Corporation and hospital services and departments would add to the overall strength of the Corporation and the hospital community.

The issue of disposing of radioactive wastes at MGH was discussed by Dr. Lamont-Havers. Finding suitable disposal sites for these wastes has become a national problem. At the moment there appears to be no need to limit the use of radioactive material at the MGH.

In keeping with the tradition of the GEC to examine the activities of its standing committees, the following reviews took place over the course of the year. Dr. John Burke, Chairman of the Committee on Disaster Planning, gave a report on his committee's activities; Dr. W. Gerald Austen, as Chairman, reported on the activities of the Surgical Coordinating Committee; the Tissue Committee's report was given by its Chairman, Dr. Gordon Scannell; Chairman Gerald Foster reported on the Patient Records Committee; Dr. Daniel Ellis, as Chairman, gave an account of the Baker-Phillips House Committee; and Mr. Lawrence Martin gave an account of the GEC Data Review Subcommittee.

The activities of the Treadwell Library Committee were reported by its Chairman, Dr. George Richardson. Dr. Richardson supplemented his verbal account with a written document giving a detailed analysis of the libraries holdings and the use to which they are put. He commented that MGH knows more about the way its library is used than most medical facilites and can therefore allocate the library resources effectively.

Two new subcommittees of the GEC were established. The first, chaired by Dr. Alexander Leaf, is to evaluate staff conduct; the second, a subcommittee on infection control is charged with monitoring an infection control program at the Chelsea Unit of the MGH.

Dr. Edwin O. Wheeler was elected GEC Member at Large in Medicine replacing John Stoeckle, who completed his third and final year of effective membership, July 1st, 1980.

GIFTS & BEQUESTS
(For Year Ended September 30)

Private philanthropy continued to be a very important source of funds for a wide range of activities within The Hospital. During the past year we received over 40,000 contributions totaling approximately $10,000,000 from individuals, foundations and corporations. These generous gifts enabled us to improve our patient care facilities and physical plant, provided support for a variety of basic and clinical research projects, and strengthened our endowment funds. Private philanthropy is a vital factor in our ability to maintain our excellence in patient care, teaching, and research.

PLANNED GIVING
WILLS AND BEQUESTS

The founding of the Massachusetts General Hospital in 1811 and its notable service over the succeeding years have been made possible in large part by generous gifts and bequests. Now, in addition, planned giving arrangements, including the give annuity, the charitable remainder unitrust, the charitable remainder annuity trust, and the pooled income fund, are available—and are being used—to the mutual benefit of donors and the hospital.

Funds may be left by will to the Massachusetts General Hospital in one or more of the following ways:

A cash bequest leaves a specific dollar amount.

A bequest of all or a stated percentage of the residue of an estate gives the hospital all or such stated percentage of the balance of the estate after payment of debts, taxes, expenses of administration, and specific bequests.

A bequest of a remainder of a charitable remainder trust after a life estate in a surviving spouse or other beneficiary(ies) gives the hospital all or a portion of the principal sum of such trust following the death of the spouse or other life beneficiary(ies).

A contingent bequest makes the hospital the beneficiary only in the event that other designated beneficiaries fail to survive the donor.

Should you plan to include the hospital in your will—or should you be interested in one of the types of gifts described above—the hospital could suggest to you or your lawyer specific wording for carrying out your wishes.

Joseph C. Donnelly, Jr., Director of Development (telephone: 726-2200), would be pleased to hear from you and to provide whatever information you or your lawyer may seek.

Dalton Scholarships

Dalton Scholar Awards will be made to young physicians for significant contributions to the advancement of medical knowledge and for individual promise for continued scholarly work. The fund will be available on a flexible basis to members of the MGH Staff under 40 years of age for:

1. Support of a scholarly endeavor - especially one involving (a) innovation and (b) widespread hospital benefits.
2. Foreign travel by a member of the hospital staff under age 40 with a potential for aiding the hospital's research or educational program.

The fund will be administered by an **ad hoc** committee composed of three members of the General Executive Committee appointed by it (each to serve for three years, with one member rotating off each year), which will consider applications made to the General Executive Committee and will report its recommendations to the General Executive Committee for final action.

Warren Triennial Prize

The Warren Triennial Prize was founded by the late Dr. J. Mason Warren in memory of his father, and his will provides that the accumulated interest of the fund shall be awarded every three years to the author of the best dissertation considered worthy of a premium on some subject in Physiology, Surgery, or Pathological Anatomy, the arbitrators being the General Executive Committee of the Massachusetts General Hospital.

The submission of special theses or essays is no longer required for this competitive prize.

The Warren Prize Lectures, selected for outstanding work in medical science, are nominated to the Trustees by the General Executive Committee.

In 1977 the Warren Triennial Prize was awarded jointly to Dr. Seymour Benzer of the California Institute of Technology and Dr. Walter Gilbert of Harvard University.
